Al-Hawash Private University
is organizing the Second International Medical Conference
entitled

“Advances in Therapeutic Applications of Stem Cells”.

Date: November 8-9, 2024

Venue: Al-Hawash Private University

Al Hawash, Homs, Syria

Al-Hawash Private University is pleased to extend an invitation to its Second International Medical Conference to be held under the theme “Advances in Therapeutic Applications of Stem Cells”.

The two-day event is scheduled for November 8-9, 2024, and will take place at Al-Hawash Private University, Al Hawash, Homs, Syria.

The aim of the conference is to bring together leading researchers, academics, clinicians and healthcare professionals from around the world to present and discuss the latest advancements and trends in the field of regenerative medicine; to champion new ideas to overcome the current challenges across the clinical and translational spectrum of stem cell- based research and therapy.

The conference will offer a comprehensive program covering a wide range of topics, including innovative stem cell therapy, new medications, the latest research, and technological breakthroughs. With keynotes, panel discussions, poster sessions, and interactive workshops, this conference promises to be an engaging and enlightening experience for all attendees.

This important event will provide a platform for networking with scholars from different countries, fostering collaborations, and exploring new venues in stem cell research.

Whether you are a seasoned researcher, clinician or simply interested in the field of regenerative medicine, we warmly welcome you to join us at the Second International Medical Conference. We look forward to your presence and contributions towards making this event a resounding success.

Conference Topics

- ☑ Stem Cells and Heart Diseases
- ☑ Stem Cells and Nervous System Diseases
- ☑ Stem Cells and Degenerative Diseases
- ☑ Stem Cells and Blood Diseases
- ☑ Stem Cells and Ophthalmologic Diseases
- ☑ Stem Cells Implantation, Techniques and Bioethics
